

iMentor is tracking the long-term college outcomes of nearly 8,000 students nationally since 2009 as well as the short-term outcomes that students and mentors are achieving each year.

Our students continue to outperform the best comparable peer groups in enrollment and completion, and they persist at similar rates to their peers.

College Outcomes

National Peer School Analysis

iMentor students are
80%
more likely to complete college

than their peers from similar high schools

33,035
students

matched with mentors since 1999

9,009
mentoring pairs

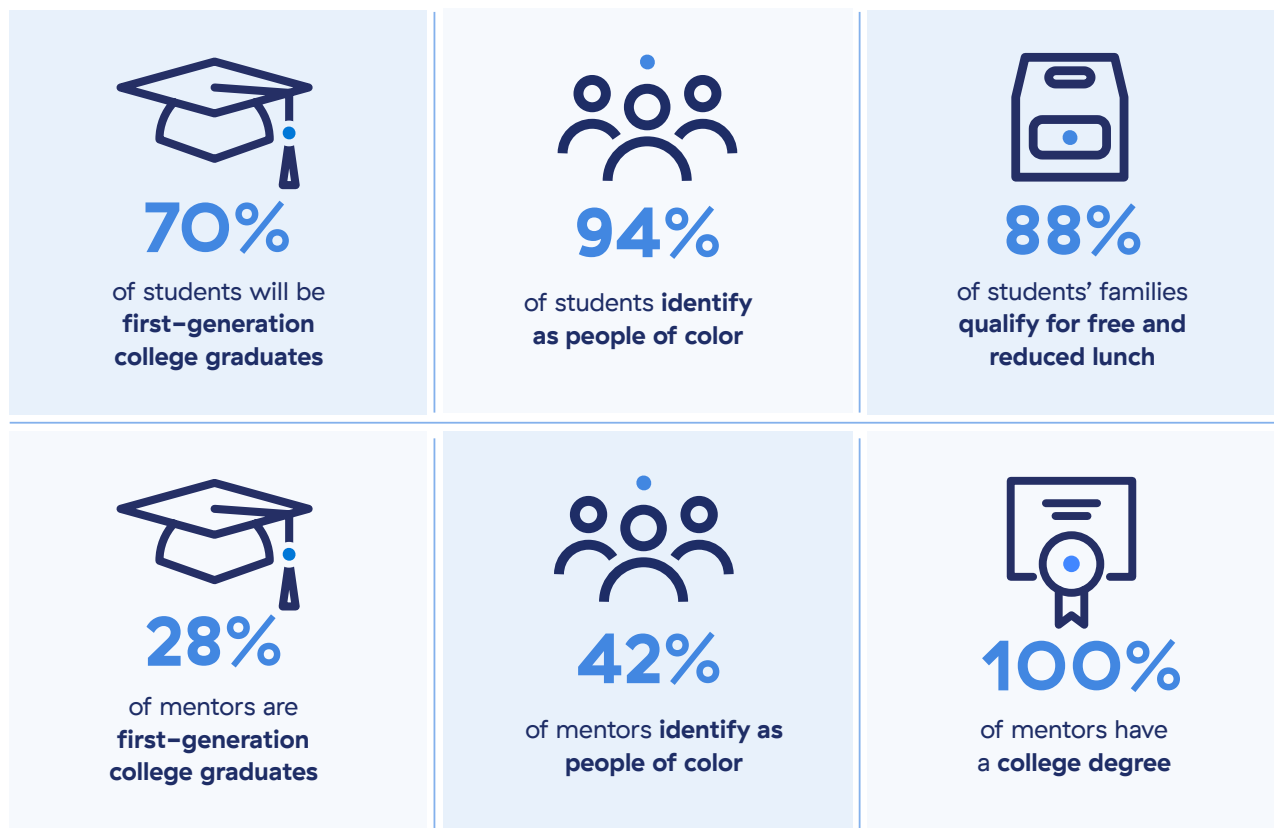

in 20 cities during the 2018-19 program year

STUDENT OUTCOME TRACKING

Our Students and Mentors

We believe that all people deserve an equitable chance to pursue their ambitions. Our program builds authentic mentoring relationships across difference in order to bring greater equity to our students' educational journeys.

It made a big difference to have someone believe in me so much. To have someone who understands what I'm going through and how to get to college. Jen showed me her full support. She let me know what her experience was like, and that was really helpful for me.

84%

of mentoring pairs developed study **strategies to help** improve academic performance

87%

of mentoring pairs **researched** potential colleges

Working with Andrew has been a growing experience. I spend much of my time trying to figure out how to help him avoid the pitfalls of my teenage years and find the best ways to advocate for and expose him to enriching opportunities. As a man of color, I believe it's important for young men of color to see me doing something positive. I hope to inspire them to believe they can also be successful.

86% of students submitted FAFSA

91% of students applied to at least one college

90% of students who applied were accepted

It's funny to look back at my first messages with Jessica and remember how nervous I was. Now I look forward to seeing her. Right now we're working on getting my grades higher, and soon we're going to start planning for college. I want to be the first person in my family to go to college, and Jessica will be a big help. I'm glad I got over my nerves and gave her a chance.
